QnA

Promoting and Endorsing Trainings

NSYFC will continue to gather knowledge of important trainings in our region, as well as spread the word on them.

Behavioral Health Clubs in Schools

Clubs like Teen Council, Sehome High School's PCO, Mount Baker Senior High School's Baker ONEVoice, as well as Ferndale's Behavioral Health club, are very important to the youth in our region. YFC is committed to beginning more of these clubs in other areas this year.

Youth Homelessness

The top suggestion for successful recovery is safe and stable housing. There was an emphasis on stable housing for youth.

Working with Pediatricians and Physicians

Getting more physicians involved with YFC to better assess
the need in our community.

Appointment Prep Cards

Small, pocket-sized cards that provide youth and families with the resources they need to properly prepare for their behavioral health appointments.

Updated Resources Page

Updating the resources page to point people in the right direction so they can find resource lists that are already in existence. Additionally, inviting those who have made these lists to YFC meetings so they can provide more detailed information.

Amplifying Existing Information Campaigns

Getting schools more involved with providing behavioral health information by promoting existing informational campaigns and starter kits for other schools to use.

Reducing Administrative Burdens

Reducing the administrative burdens will hopefully open up for opportunities for behavioral health care in our community.

Youth Leadership Page

Creating and youth leadership opportunity directory so that these resources become known and more easily accessed by youth and families who are interested in them.

Recommendation Poll

Highlighted Result Data

- Snohomish has the largest population (64% of our region)
- 64% of respondents live in Whatcom County
- Lacking engagement from the San Juan and Island Counties
- Community Partners had the lowest engagement (14%)
- Racial and ethnic minorities are under-represented in the data

The background features a light cream color with several abstract, hand-drawn elements. In the top left, there is an orange circle with a blue zigzag line. In the top right, there is a green shape with blue wavy lines. In the bottom left, there is a green shape with blue wavy lines. In the bottom right, there is an orange shape. A large, rounded green shape in the center contains the text 'QnA!'. This central shape is bordered by a dotted blue line. There are also three orange stars on the left, three blue stars on the right, and two hearts (one orange, one blue) at the bottom center.
