Motion #23-18

- HFH-North Sound BH-ASO-Letter of Engagement for the purpose of engaging HFH services for the North Sound BH-ASO Executive Director search.

Summary:

Island County has requested funding for the implementation of JULOTA care coordination software in the amount of \$22,900. This portion of funding is a one-time implementation fee. This software will support our Opioid Outreach, Recovery Navigator and Co-Responder teams along with other county services.

The motion includes \$10,000 in HARPS funds for housing assistance to individuals discharged from state hospital and psychiatric/residential inpatient stays. Island County has depleted their allocation and inquired whether there were funds available. This is one-time funding that must be expended by June 30, 2023.

Motion #23-19

- North Sound BH-ASO-ICN-23 Amendment 1 for the provision of adding \$32,900 in one-time funding to support the implementation of JULOTA and HARPS subsidies. The contract term is January 1, 2023, through December 31, 2025, with an automatic one-year renewal on January 1, 2024, based on continued compliance with the terms of the contract.

Summary:

Department of Commerce (DOC)-Community Behavioral Health Rental Assistance (CBRA)

DOC reached out and inquired whether our CBRA providers could use additional one-time funding for CBRA program expenses. Our CBRA providers indicated they could use additional funds. We are receiving more than was requested, the additional funds are a contingency if providers go over budget. The funds must be expended by June 30, 2023.

Motion #23-20

- Department of Commerce-North Sound BH-ASO-CBRA-23 46409-002 Amendments A for the provision of additional rental assistance funds for CBRA eligible individuals. The maximum amount on this amendment is \$210,000 with a term of November 1, 2022, through June 30, 2023
- Department of Commerce-North Sound BH-ASO-CBRA-23 46409-002 Amendments B for the provision of additional rental assistance funds for CBRA eligible individuals. The maximum amount on this amendment is \$300,000 with a term of February 1, 2023, through June 30, 2023.

Summary:

The next motions are downstream contracts appropriating the requested funds from the providers. Lake Whatcom Center and Lifeline Connections are also receiving funds from HCA for the Governor's Housing/Homeless Initiative-Rental Voucher Program, at \$25,000 each.

- Bridgeways \$17,000 (Snohomish) \$10,000 Amendment A and \$7,000 Amendment B

HOST: Treatment Outcomes

- ▶ What is "success"?

The 'S' in HOST is the key to the whole program....stabilization! We will meet many clients with emotional and medical needs that just need stabilization to get to the next level of their recovery. Success is when they are stable enough to access other forms of recovery. We don't want to put the cart before the horse....

HOSTcontinued

- Connection with City of Everett:

We have continued a partnership with the City of Everett, beginning with the LEAD program. This will be a good connection for referrals which could include police, fire, and institutions.

HOSTcontinued

- ▶ Connection with DESC:

We are attending technical advisory meetings with the HCA and with DESC in downtown Seattle. This is proving invaluable for the creation of our program, and they have been very hands on to help troubleshoot difficulties that may arise. Typically they are monthly

We also submit monthly deliverables to the BHO on the 20th of each month.

HOSTcontinued

- ▶ Start up timeline: Nov-Dec 2022

- ▶ Program Strengths
 - ▶ 1. Low Barrier approach to providing services
 - ▶ 2. Comprehensive staffing

- ▶ Most Concerning Challenges
 - ▶ 1. Staff burnout
 - ▶ 2. Staff self-care (It's a different landscape out there)

North Sound Behavioral Health Administrative Services Organization April 13th, 2023, Board of Directors Financial Notes

HIGHLIGHTS

1. The Budget to Actuals Looks pretty good. Our state funds are showing a large positive variance partially due to the 7% rate increase, this will slowly decrease until July when we get our annual proviso payments. SABG funds are showing a large negative variance mainly due to late payment processing by HCA, I will explore it more closely when I do the next R&E report. Most of the large positive expense variances are due to programs not running yet except for Other MH services, we are experiencing a large increase in MH outpatient services. As a note we have received our ARPA funding budget which basically replaces the Covid block grant funds, the percentage has shifted more towards Mental Health and decreased the SABG allocation.
2. The Revenue and Expense statement looks good as of the end of March, the SABG fund balance is running a large negative mainly to the late payment of invoices that I mentioned above. I finished the 12/31/22 R&E report for the State, that analysis shows that most of our State fund balance is tied to Proviso dollars, our available fund balance increased from \$4,863,981.65 to \$5,867,801.05 mostly due to using more block grant and moving some Proviso dollars over that we earned through deliverables. Our Minimum Reserve requirement is \$3,090,242.00.
3. The one thing to note is the Medicaid fund balance, I adjusted it to the R&E balance at 12/31/22. I would guess that at this point the Medicaid fund balance is a lot closer to running even but this month we received a large retro payment from one of the MCOs which makes their fund balance a little larger. I will recapture that amount and put it back to State funds since we originally covered the shortfall.
4. Last month we added a worksheet showing the January to June projections. The main thing of note is that we are projecting an increase to our GFS fund balance which is partly due to our 7% rate increase. We project a GFS fund balance of \$8,103,099 at the end of June. I did an analysis of the ending fund balance and it appears we are running an available balance of about \$238,000 per month.
5. We are proposing to allocate the additional \$238,000 a month to cover the costs of expanded crisis outreach services for both Compass Health and Snohomish County. We have received an expansion proposal from Compass Health and are continuing to work with Snohomish County on their efforts to expand the workforce that supports crisis outreach services. We anticipate that these expansion will use most if not all of the additional revenue.

6. We have also passed on the 7% rate increase by covering the increased costs of the programs we are mandated to fund for crisis services, as well as the Triage, Crisis Stabilization, and Withdrawal management facilities.

NOTES

1. We are presenting the financial statements for March 2023 for the Behavioral Health Administrative Services Organization (ASO).

2. These monthly statements are prepared for the Board's use only. They provide a snapshot of expenses and revenue for a single calendar month compared with a hypothetical "year to date" projection. However, neither revenues nor expenditures occur on an equal 1/12 amount each month.

3. The North Sound BH-ASO adopts "calendar year" budgets, but the allocations from the state are done on a state fiscal year basis [with adjustments every 6 months]. The exceptions are Federal Block Grant Funds which are allocated for the entire fiscal year.

4. Revenues and expenses are managed independently within each of the major fund categories: Medicaid, State General Fund, Mental Health Block Grant, Substance Abuse Block Grant, and SAMHSA [a direct grant we receive from the federal government for our rural Medication Assistance Treatment program].

5. Within 'State General Funds', allocations are further subdivided between general state funds, and the multiple "Proviso" funds allocated for specific services.

6. We have added two new lines at the bottom of the "Revenue and Expense" tab which shows the beginning and ending fund balance within each fund category for the state fiscal year. I also added some additional lines at the bottom to show the Net Income from Operations before the transfer of funds to the BHO.

7. The Budget to Actuals statement includes notes on areas where there is a variance between the hypothetical year to date budget and actual revenues and expenditures. I also added additional lines at the bottom to show the transfer of funds separate from the normal operations.

Re: North Sound Counties Behavioral Health Needs Assessment

Dear Governor Inslee,

This letter is a request from the North Sound counties to consider our recommendations for strengthening state efforts to increase behavioral health treatment capacity in the North Sound region by using a more targeted approach.

We appreciate the commitment by your office and the Washington State Legislature to significantly increase investments in behavioral health services. These efforts have begun to make a difference, but, as you know, serious gaps remain and even with these investments we struggle to keep up with the need.

In 2017, the North Sound counties commissioned a detailed study of how many behavioral health inpatient treatment beds would be needed over the next five years. The results of this study assisted the counties and our Washington State legislature in targeting funds to the types of facilities that were identified as most needed. Most of the facility types that were identified as needed were eventually funded by both the state and the North Sound counties together, and all of them are now in operation.

In 2022, the North Sound Counties commissioned an updated study of the projected need for the next five years and asked that the need for outpatient as well as inpatient services be identified. The study included a detailed demographic analysis, an inventory of current facilities, and a list of future projects that have been funded by the Department of Commerce. A copy of the Executive Summary is attached.

Key findings were:

- The largest growing segment of the population that will need behavioral health services are those over 65.
- The second largest growing segment will be the pediatric population for which there almost no inpatient treatment/crisis stabilization beds in the North Sound region.
- The need for inpatient treatment beds, especially for Substance Use Treatment Beds, will continue to outstrip the need [note: for mental health, this analysis only looked at Evaluation and Treatment and Crisis Stabilization beds, not inpatient psychiatric hospital beds].
- The need for outpatient services will outstrip available capacity by even more than inpatient capacity.
- The various types of outpatient services are distributed unevenly across the five counties with significant gaps in the availability of some types of services.

After careful discussion with our Counties and Advisory Board, we would like to make the following recommendations:

- 1) Allow bidders to apply for a greater percentage of the capital funds needed to complete a project and to apply for additional funds in subsequent rounds of funding if needed and if the bidder can demonstrate that the additional funding will allow them to complete the project. The model that assumes that bidders can raise significant amounts of funding from other sources is no longer viable.
- 2) Conduct more rigorous scrutiny of bidder abilities to actually complete the project they are requesting funding for. Assessment of bidder ability should include: do they have actual experience in building and operating the kind of facility they are apply for funding for, AND, do they have prior experience providing behavioral health services in the region where the project would be located.
- 3) Develop a more strategic approach to identifying the need for supportive housing as part of the behavioral health services continuum. Currently, state and federal dollars fund a hodge podge of supportive housing programs – all of which are needed – but most of which are not well coordinated with each other or with the needs of persons participating in or exiting from treatment programs.
- 4) Develop a more regional based assessment of the most critical areas of need for future funding rounds – target funding to regional needs. Include counties, ASOs and providers in identifying what these needs are.
- 5) Develop strategies to increase support for outpatient facilities including sufficient operational funding to serve more rural areas.

Thank you for our consideration of our recommendations and your continued work with the Washington State Legislature to address the critical need for behavioral health services in our state.

Sincerely,

Peter Browning

April 13, 2023

1. LEGISLATIVE UPDATE – as of April 12, 2023

Bills Of High interest to ASOs

Bill	Title	Status
HB 1134	Implementation of the 988 behavioral health crisis response system	Passed the House and the Senate Rules Committee on April 8 with amendments
SB 5120	23-hour crisis relief centers	Passed the Senate and House Rules Committee on April 7 with amendments
SB 5130	Assisted Outpatient Treatment	Passed the Senate and House Rules Committee on April 6
HB 1515	Contracting and procurement requirements for behavioral health services in medical assistance programs [including network adequacy]	Passed the House and the Senate Rules Committee on April 7 with amendments
SB 5536	Modifies provisions of the Blake Bill Note: an amendment added by House Appropriations would modify the Recovery Navigator Programs as essentially an extension of the LEAD program with little flexibility for the broader community referral program that has evolved in most areas. After concerns were voiced by WSAC, ASOs and even HCA – the amendment was modified on the House floor to restore the ability for a broader community program but with more focus on the LEAD model and law enforcement referrals	Passed by House Rules Committee on April 11 with an amendment to the amendment proposed by House Appropriations [see note to the left]

Other Bills of Interest

Bill	Title	Status
5440	Providing timely competency evaluation and restoration services [Trueblood]	Passed the Senate and House Rules Committee on April 7
1724	Workforce Bills Behavioral Health Associates	Passed the House and Senate Rules Committee on April 4
5189	B.H. Support Specialists	Passed the Senate and House Rules Committee on April 4
5555	Establishes certified peer specialists as a new profession for DOH certification.	Passed the Senate and House Rules Committee on April 4

Legislative Calendar:

- **February 24 - Fiscal committee cutoff - house of origin**
- **March 8 - Floor cutoff - house of origin**
- **March 29 - Policy committee cutoff - opposite house**
- **April 4 - Fiscal committee cutoff - opposite house**
- **April 12 - Floor cutoff - opposite house**
- April 23 - Sine Die

Legislative Operating Budgets:

- Both the House and the Senate have released their proposed 2023-2025 Biennial Operating Budgets as well as their 2023 Supplemental Budgets.
- The Senate biennial budget provides \$4,918,807,000 for 74 new and continuing programs.
- The House budget provides \$5,355,557,000 for 115 new and continuing programs.
- Since some programs are only in one of the chamber’s budgets, the two budgets will need to be reconciled in conference committee.

2. QUARTERLY CHECK IN MEETING WITH HCA LEADERSHIP

- The Quarterly check-in meeting with North Sound BH-ASO leadership and HCA was held on March 14.
- Topics discussed included: transportation problems arranging for transport to and from facilities, update on the procurement of the next round of Integrated Managed Care providers and how the counties will be involved; a briefing on the North Sound Behavioral Health Needs Assessment and our recommendations for follow up; an overview of how we are funding co-responder programs; an update on our proposal to

begin planning now for the Youth Inpatient Navigator program but delay formal implementation until July 2024, and an update on BH-ASO leadership transition.

3. BEHAVIORAL HEALTH SYSTEM COORDINATION COMMITTEE- NETWORK ADEQUACY WORKGROUP

- The Subcommittee of the Behavioral Health System Coordination Committee met on March 29 to continue to work on proposed measures for “Network adequacy” and timeliness of access to care.
- The next step is to review the currently available data measuring how long it takes to get an appointment [when this data is available], then hold focus groups with different types of providers to elicit their perspective on how to measure and improve access to care.

4. BEHAVIORAL HEALTH SYSTEM COORDINATION COMMITTEE [BHSCC]

- The full BHSCC met on March 30. Jason McGill shared that CMS has agreed to approve a waiver for Medication Assisted Treatment and some care management services in jails, as well as to allow jails to provide a 30-day supply of drugs in hand upon release.
- Additional waiver provisions are now being negotiated in California that Washington may also seek if California is successful. This includes a full pharmacy benefit in jail.
- Any waiver given will have to meet Medicaid budget neutrality provisions as well as non-supplant language which would require that the savings to the county would have to be reinvested in other behavioral health services.

5. INTEGRATED MANAGED CARE PERFORMANCE METRICS

- Attached is a report prepared by the DSHS Research and Data Analysis Division.
- It summarizes performance related to key behavioral health metrics for Medicaid funded services for the last 6 years.
- Performance on most measures has flattened or declined in the last few years, but it’s difficult to determine how much of this is due to COVID.
- Dennis Regan, the North Sound BH-ASO data analyst, has customized the graphs to highlight performance in the North Sound region [[Attachment 1](#)]

6. CRISIS SERVICES UPDATE

- Attached is the Weekly Crisis Capacity Indicator report through April 4 [[Attachment 2](#)].
- It shows a decline in the number of calls to the crisis line while crisis outreaches remain steady. We will explore whether this is the impact of calls switching over to 988.

7. CLOSURE OF SNOHOMISH COUNTY TRIAGE CENTER

- Compass Health has notified us they will be closing the Snohomish County Triage Center [SCTC] at the Bailey Building in Everett in late April. [[Attachment #3](#)]
- They will resume providing Triage services as part of their Broadway Campus Redevelopment.

- They sought to temporarily move the Triage beds to the Greenhouse residential treatment facility but were not able to get approval from Snohomish County to do so.

8. PROJECTED OPERATING DEFICIT FOR THE NORTH SOUND BEHAVIORAL HEALTH TREATMENT CENTER IN EVERETT

- Pioneer Human Services [PHS] is projecting an operating deficit for the North Sound Behavioral Health Treatment Center in Everett [Denny Juvenile Justice Center] of approximately \$697,000 [see **Attachment 4** -communication from Clint Jordan]
- The projected deficit is due in part to the lingering impact of COVID and the failure of reimbursement rates to keep up with costs.
- They are seeking additional financial support from the North Sound counties and the BH-ASO. Snohomish County is already assisting by helping reimburse rental costs.
- PHS is also trying to renegotiate their reimbursement rates from the MCOs.

9. EXPANSION OF FUNDING FOR CO-RESPONDER PROGRAMS

- We received a request from one of the counties for additional funding for their co-responder program so we have sent an invitation to all the counties and co-responder programs to let us know if they would also like additional funds.

10. APPLE HEALTH AMBASSADOR PROGRAM

- During the COVID-19 public health emergency (PHE), the Health Care Authority (HCA) extended coverage for all Apple Health (Medicaid) clients. This extension is now ending due to the Consolidated Appropriation Act (CAA) of 2023 and clients' extended coverage will be affected.
- HCA is resuming normal operations April 1, 2023 and is **seeking community organizations and influencers to act as volunteer Apple Health ambassadors**. Ambassadors will work to ensure that Apple Health clients have the information and resources needed to maintain coverage at the end of the continuous coverage requirement period.
- For more information go to: [Apple Health ambassador program | Washington State Health Care Authority](#).

11. NORTH SOUND BH-ASO 2023 STRATEGIC GOALS

- We have updated our Strategic Goals for 2023. The Goals are the same as 2022 but some of the strategies have been updated. [**Attachment #5**]
- Strategy #4.02 calls for advocating for network adequacy.
- All the strategies under Goal #5 – “*Develop and implement a plan to address social equity and systemic racism*” are described in more detail and will be supplemented by the DREI Strategic Plan when it is finalized.

12. NORTH SOUND BH-ASO BANKING PROFILE

- In light of some of the recent concerns about bank solvency, we reviewed the current status of North Sound BH-ASO bank deposits.
- Our deposits are currently held by Key Bank. Washington State requires that Key Bank has enough collateral to secure the deposits we have at the Bank. Deposits with Key Bank are covered by a pledge pool held by the Federal Reserve Bank. We also currently have all of our money that is in Key Bank swept to an interest-bearing account every night which is then broken up into \$250,000 increments to be FDIC Insured.

Notes on Data

- ▶ Social Determinants of Health (Homelessness, Employment)
 - ▶ All Medicaid members (FFS and IMC enrollees), including dual eligible persons
- ▶ Six-year trend rates:
 - ▶ Graphs trend the direction you expect, 2016 to 2021 from left to right
 - ▶ Tables run the OPPOSITE direction, 2021 to 2016 from left to right
 - ▶ Measures include all Medicaid members (FFS, RSN, MCO, IMC) but not duals
- ▶ Redaction rules:
 - ▶ The numerators and denominators are redacted if the numerator is less than 11; as long as denominator is 11 or greater the rate will be displayed
 - ▶ The rate and all numbers are redacted if the denominator is less than 11
 - ▶ As a result, very few n's can be displayed for Follow up for ED Visit for children/adolescents, however most denominators were larger than 30

Washington State Indicators of Anxiety or Depression Based on Reported Frequency of Symptoms During Last 7 Days

The U.S. Census Bureau, in collaboration with five federal agencies, launched the Household Pulse Survey to produce data on the social and economic impacts of Covid-19 on American households. The Household Pulse Survey was designed to gauge the impact of the pandemic on employment status, consumer spending, food security, housing, education disruptions, and dimensions of physical and mental wellness.

Hi Joe,

In appreciation of your connection and collaboration with Compass Health, we wanted you to be among the first to know that in late April we will be closing the Snohomish County Triage Center (SCTC) at the Bailey Building, 3322 Broadway in Everett, WA.

We also want to reinforce our full commitment to relaunching these services as part of the second phase of our [Broadway Campus Redevelopment](#) – a state-of-the-art facility for intensive behavioral health services, which will break ground in 2023. A cornerstone of Phase II is a 16-bed crisis stabilization center; it is designed from the ground up to support innovations in our model and enhance our ability to meet the needs of clinicians, clients and community partners.

As you may know, the building that currently houses our triage center will be removed to make way for the Broadway Campus Redevelopment. Considering the vital role of the triage program, the Compass Health team worked diligently to prevent any disruption in service during construction – and specifically aimed to avoid this closure by planning to relocate services to another local facility.

Just a single location within Snohomish County met stringent regulations for crisis-facility licensing, capacity and other requirements, but unfortunately the landlord did not approve its use. Despite an exhaustive search with external real estate partners, we were not able to identify another appropriate site.

As we prepare for the closure, our team is working closely with staff members to identify other open positions with Compass Health that are a good fit based on their credentials, education and experience.

Looking ahead to the Broadway Campus Redevelopment, we are enthusiastic about the opportunity to reopen our crisis stabilization program in an environment that is purpose-built to support recovery, serve as a magnet for behavioral health professionals, and demonstrate respect for the clients we serve. As we've experienced with our [Whatcom County Triage Center](#), we believe the upgraded facilities will also enable us to increase utilization and further ease burdens on local emergency rooms, law enforcement and other first responders.

We look forward to inviting you to see the project firsthand, as we move forward with groundbreaking, construction and reopening.

If you have questions about the SCTC closure, please contact me directly.

Best Regards, Tom

Hi Joe,

Below is the written description of the problem and the request from PHS.

Residential treatment programs have been operating at significant financial loss for several years. The funding model and insufficient rates have long challenged providers. These problems were exacerbated during the pandemic. More recently, the impacts from inflation and rates that continue to lag behind cost increases have further stressed residential treatment providers.

Pioneer Human Services residential treatment programs have suffered millions of dollars in losses in recent years. In 2023, these losses project to continue. North Sound Behavioral Health Treatment Center in Everett has lost over \$100K in the first quarter of 2023 and projects a loss of approximately \$697,000 for fiscal year 2023. Continuing to incur losses of this magnitude puts residential treatment programs, including North Sound Behavioral Health Treatment Center, at risk of closure. Already this year PHS has closed two RTS programs (Pioneer Center North, CORP Seattle) in large part due to the same challenges detailed above.

Despite our numerous efforts, necessary rate increases from the MCO's have not manifested and are not likely to be received until January 2024. Snohomish County has agreed to reimburse rent costs for 2023, totaling \$276K in relief for the program. While this is incredibly helpful, there is still a projected funding gap of approximately \$420K.

Pioneer Human Services is requesting that the North Sound ASO and/or the broader collection of North Sound counties (Whatcom, Skagit, Island, San Juan) come together to fund the projected funding gap. Ideally, a budget would be developed that is equal to or exceeds the projected losses. Should losses occur; Pioneer would request financial relief and reimbursement as needed.

During this interim funding period, Pioneer will work tirelessly to negotiate rate increases with the MCO's so that they can cover the ongoing funding of the program.

While many of the problems in recent years have hit residential treatment programs the hardest, they are not the only programs that are suffering from the impacts outlined above. Crisis stabilization and detox program, including the three operated by Pioneer in the North Sound (Ituha, Skagit, and Whatcom) are also experiencing drastic increases in expense and lagging rate adjustments. As we work through renegotiations with the MCO's, any short-term financial relief is helpful to allow the negotiation process to play out.

Sincerely,

Clinton Jordan
Sr. Director, Pioneer Human Services

Thanks Joe.

Cammy mentioned the public comments section might be a place to speak to the issues. I can also provide you with a written detail.

Does that work?

Subject: ASO board meeting

Good morning Joe and Margaret,

I am wondering if it would be ok for me to attend the upcoming ASO board meeting to speak about the challenges at North Sound Behavioral Health Treatment Center?

In meeting with Cammy yesterday, she mentioned that this may be a good platform to discuss some of the issues with other county stakeholders present.
